Online Fire/EMS PAK Safety Videos – How to Access

FirePAK is excited to offer online videos as one of the safety resources provided to the fire and EMS departments insured by Continental Western Insurance Company. This online resource is available to you 24x7.

The first time you access these videos, there are two steps to take:

1. Log in* to the [private access area](#) of the firepak.com website
2. Once logged in:
 - On the "Safety & Resources" tab, select "How to Access Safety Videos"
 - Follow the instructions to register as a new user

Once you've registered the first time, you will be able to quickly log in to view future videos.

Tracking Completion

Track individual completion of videos by having each member of your crew create a personal log-in.

Prevention PAK Documents

In addition to being able to access the online safety videos, once you've logged in to the private access area of firepak.com, you will have access to the Prevention PAK documents. These are safety resources targeted to the needs of the fire/EMS community. You'll find a link to them on the "Safety & Resources" tab.

*** Log-in Information**

User names and passwords were mailed to department chiefs in July and October. If you're missing these, please contact your [State Director](#).
